

Assignment: AI System Ka Diagram

Topic: Artificial Intelligence (AI) System

AI System Kya Hai?

AI system aik aisa computer system hota hai jo data ko samajh kar us par processing karta hai aur kisi problem ka result ya decision provide karta hai. AI system learning aur feedback ki madad se apni performance ko behtar bhi kar sakta hai.

AI System Ka Diagram

AI system input ko process karta hai, result deta hai aur feedback se behtar hota hai.

Step	Wazahat
1. Input	User ya system se information/data liya jata hai.
2. Data	AI ko required information aur examples provide kiye jate hain.
3. AI Model	AI model data ko analyze aur process karta hai.
4. Output	AI final answer, prediction ya recommendation deta hai.
5. Feedback	Feedback se system ko improve karne mein madad milti hai.

Natiya

AI system ka basic process Input → Data → AI Model → Output hota hai. Feedback ke zariye AI system ko mazeed behtar banaya ja sakta hai. AI ka istemal education, healthcare, business, security aur bohat se doosre fields mein kiya jata hai.
